

EARTHCRAFT BIOSYSTEMS™

CALICEOUS™

EARTHCRAFT BIOSYSTEMS™

CALICEOUS™

Caliceous is a natural and organic nutrient supplement that contains abundant levels of calcium and magnesium. These nutrients are vital to plant health, development foliage, chlorophyll formation, and phosphorus uptake and migration. This suspended liquid formula is completely soluble to allow for maximum nutrient uptake. Caliceous is suitable for all stages of growth for general purpose and to correct deficiencies.

Guaranteed Analysis

Calcium(Ca)-----4.0%

Magnesium(Mg)-----1.5%

Derived from: calcium chloride,
magnesium sulfate

Application Rate:

Root Drench: 1-2 ml per gallon of water with every feeding or once or twice per week

Foliar Application: 1-2 ml per gallon of water once or twice per week

Keep out of reach of children and pets. Do not inhale or ingest.
Wash hands after use.

MEETS THE NATIONAL ORGANIC
PROGRAM REQUIREMENTS
