

EARTHCRAFT BIOSYSTEMS™

ECC™

SEACRAFT™ SP 0-0-16

Seacraft SP is an organic nutrient supplement made from premium cold-pressed North Atlantic sea kelp. Containing high levels of potassium, essential for plant growth in all phases, Seacraft SP can increase root formation, stimulate cell growth, activate plant enzyme systems, and promote bud formation. Rich in enzymes, amino acids, and trace elements, Seacraft SP is a nourishing addition to your garden.

Guaranteed Analysis

Soluble Potash(K₂O)-----16%

Derived from:

kelp extract (*ascophyllum nodosum*),
potassium hydroxide
